

Bar chart showing the number of cells for each cell type across five methods: ImmSC, majorSC, mySC, nmSC, and SC3. The y-axis represents the number of cells, ranging from 0 to 1000. The x-axis lists the cell types: ImmSC, majorSC, mySC, nmSC, and SC3. The legend indicates the following colors for the methods: ImmSC (red), majorSC (orange), mySC (olive), nmSC (green), and SC3 (cyan).

Cell Type	ImmSC	majorSC	mySC	nmSC	SC3
ImmSC	~150	~150	~750	~10	~10
majorSC	~150	~150	~750	~100	~850
mySC	~150	~150	~750	~10	~850
nmSC	~150	~150	~750	~1000	~850
SC3	~10	~10	~10	~10	~10
